Other Fees & Services*	8,890	701,250	765,000	9.09%
Bond Interest Expense	354,410	340,685	325,740	-4.39%
Bond Principal Expense	225,000	245,000	260,000	6.12%
TOTAL EXPENDITURES	**588,300**	**1,286,935**	**1,350,740**	**4.96%**
Revenues Over (Under) Expenditures*		**(461,935)**	**(450,440)**	
Beginning Fund Balance		**1,345,766**	**1,585,081**	
Ending Fund Balance*		**1,585,081**	**1,899,641**	

* - Other Fees & Services is the 85% of the annual property tax increment received each year that is transferred to the TIF Trustee (Amalgamated Bank). These funds are then used to pay the annual debt service on the TIF bonds. Therefore, the amounts seen in FY 13/14 and 14/15 for Other Fees & Services are not included in the Fund Balance calculation because the transfer is a duplication of the annual bond interest and principal expenditures.

Village of Bradley, Illinois
Five Year Capital Plan
One Year Staffing Plan
Fiscal Years 2015 to 2019

Overview

An important responsibility for any local government is to maintain and develop the public infrastructure on which the residents and local business rely. Without accomplishing these responsibilities, the community will not flourish or become what was the original vision for the Village. Planning is a vital step in succeeding with the goals established for any community.

Goals can run a wide range of ideas brought forth by Village leaders. However, in the planning stage, objectives must be brought to their most basic services. The basic services for any municipality are public safety, economic development and public services and benefits. Some of these services are very visible and easily defined, some are not. It is easy to see the benefit of a squad car or snow plow on the street but not so for a computer, printer or network server. However, these items provide benefits to the community by different means and all are important.

This Capital Plan is a tool used to aid in the preparation of the coming fiscal years' budgets. It presents the major requested capital purchases over a five year period that departments have determined are necessary to operate in the most efficient and productive manner. Naturally, the key factors to regulating the spending for these items are the availability of the funding and a demonstrated need for the item. Therefore, the plan is more so a needs analysis than an actual list of intended expenditures. The budget process will determine the extent to which these items can be afforded. **It is important to note that most capital costs are presented in today's dollars: it is difficult to measure inflation.**

The following sections contain brief descriptions only for the capital requests listed for Fiscal Year 2014/2015. The remaining four years do not have descriptions. Each department's plan contains the item, cost estimate and the importance that each department has assigned to it. A (1) means that item is the highest importance for that year; the lower the priority, the higher the number next to it. Those items that appear in red were included in the original request made by each department but have been cut during the balancing process of the budget. Note - all items in the Plan high-lighted in yellow are facility upgrades and would be funded by a transfer from the General Fund.

Obviously, as the fiscal years proceed into the future, the certainty of these expenditures becomes less and less. In fact, by Fiscal Year 2018/2019, the actual proposed capital expenditures may look very different than what is presented here.

The one-year staffing plan that follows the capital plan is similar to the capital plan in that it presents departmental needs to either maintain or increase service levels for the taxpayers of Bradley. The costs presented include salary, all insurance and pension costs.

Total All Funds:	**$2,175,754**

This page was intentionally left blank.

CAPITAL PLAN

Administration

1. Village Facility Surveillance Camera – Phase II – This is the second phase of replacing and/or newly installing surveillance cameras around Village Hall. This project began in FY 11/12 and any uncovered areas will be brought into the overall system.

2. Controllers for Gate to Secure Parking Lot - This would replace the existing controllers for the gate to the Village Hall parking lot that are no longer functional.

3. Alarm Lock Upgrade – This would be the first phase of improving/changing all exterior door locks in the Village Hall. The purpose of this upgrade is to allow our current keypad lock system to be controlled using the wireless network. By upgrading our current lock system it negates the need for a complete new install of door locks and the possibility of new hardware not fitting our current physical door configuration.

4. Resurface VH and Bldg Std Pkg Lots – The parking lots at both facilities need to be resurfaced. The lots have deteriorated considerably over the winter and parching is no longer a solution.

5. Replace Village Hall Windows - This would replace all windows in the administration area. All windows are very drafty and provide no insulation in warm and cold weather.

6. New HVAC for Entire Village Hall - The current HVAC system in the Village Hall is extremely inefficient and, at times, does not provide adequate cooling or heating. At other times, it will operate to such an extreme that the shifts in temperature will range from 10 to 20 degrees. Also, the Village Hall is a designated warming and cooling center and the extreme temperatures seen this past winter and the consistently hot summers makes this upgrade a necessity.

7. Rt. 50 - Crosswalk at KCC - The Village is contractually obligated to install and mark a new crosswalk at the newly completed Kankakee Community College (KCC) campus extension on Route 50.

8. Village Gateway Signage - Phase I - This is the start of updating or installing Village signs at all major thoroughfares coming into the Village. This will also update signage at the Village Hall.

VILLAGE OF BRADLEY
Five Year Capital Plan
for Fiscal Years 2015 to 2019

Administration	**Fiscal Year 2014/2015**	**Fiscal Year 2015/2016**	**Fiscal Year 2016/2017**	**Fiscal Year 2017/2018**	**Fiscal Year 2018/2019**
Replace Financial Software		400,000 (1)			
Computer System Upgrades		15,000 (2)	65,000 (1)	15,000 (1)	40,000 (1)
Copier				15,000 (2)	
Rt 50 - Crosswalk at KCC	16,000 (7)				
Village Gateway Signage - Phase I	50,000 (8)				
Village Facility Surveillance Camera-Phase II	18,000 (1)				
Controllers for Gate to Secure Parking Lot	17,000 (2)				
Alarm Lock Upgrade	13,500 (3)				
Resurface VH and Bldg Std Pkg Lots	15,000 (4)				
Replace Village Hall Windows	30,000 (5)				
New HVAC for Entire Village Hall	475,000 (6)				
Totals:	**$634,500**	**$415,000**	**$65,000**	**$30,000**	**$40,000**

This page was intentionally left blank.

Police

1. Squad Car Purchase – Two (2) police squad units - one Explorer and one AWD Charger - are proposed to be replaced in order to rotate out larger engine, high maintenance and high fuel consuming vehicles. The department is proposing the Village maintain a routine replacement program for police squads in order to keep an ongoing charge for squads and avoid the "sticker shock" of requesting a large number of vehicles once every 3 to 5 years. Costs are approximately $40,134 for the Explorer and $35,607 for the Charger. Total cost of $75,741.

2. Replace In-Car Camera Systems – (4) in-car camera units are requested to be replaced in FY 14/15 at a cost of $8,629.00 each. The past two budget years, in-car camera's were replaced which leaves five for replacement. The current Panasonic model used has changed to HD and the price per unit has increased. Also included is the three year warranty and software upgrades with the current system. Total costs is $27,800.00.

3. Replacement Tasers – In June, 2009 all sworn officers were trained and issued the X26 Taser as an additional non-lethal use of force option. All tasers have the audio/video options and since 2009, there have been deployments, all investigated and determined to be justified within the department use of force policies. The current model used by the department has been discontinued by Taser, is out of warranty and will no longer be supported. The replacement model is the X26P, and we recently awarded a grant to purchase nine units, minus the camera and holster. I am requesting in the budget to purchase (5) additional units, including the cameras, holster's, extended warranty and software for a total cost of approx. $29,000.00. Taser International has indicated that they would consider credit for the old units on trade, which is usually $100.00 per unit. This budget year, the department received approx. $16,000.00 from IPRF "Helping Hands" to purchase the X26P Tasers and start the transition, although the grant does not allow for any cameras, cartridges, holsters or any accessories required to operate the unit.

4. LIVESCAN Fingerprint System – Bradley PD is the only department that still utilizes ink for Fingerprinting. While the majority of the prisoners are booked at the County Detention Center, all juvenile arrests are booked in-house and occasionally adult arrests. Additionally, we received requests for applicant fingerprinting (liquor licenses, new employee's, special licensing) and prints are returned unreadable. With LIVESCAN, all prints are taken electronically and sent directing to the Illinois Bureau of Identification. It is also proposed that with LIVESCAN, the department can become a vendor for concealed carry printing and charge fees for special fingerprinting requests that are not criminal justice related.
Total cost for the equipment, software and licensing is $23,000.00.

5. Firearms Range Equipment/Ventilation Upgrade Phase II - In order to operate an indoor firearms range, there are NIOSH, UFC, OSHA and EPA standards that must be complied with, mainly the control of airborne lead exposure. Upgrades to the range bullet trap were completed in October. The only remaining upgrade was the replacement of the roof mounted ventilation unit, with a 2 stage 99.97% HEPA housing compatible with the existing exhaust fan. Total cost of the unit is $30,000.00.

6. Crime Scene Processing Equipment - This is to purchase the necessary equipment to process and safeguard any evidence gathered at a crime scene. The current equipment is either outdated or does not provide adequate protection to ensure the safety of the evidence.

7. Communications Center Equipment – The communications center is in need of console and equipment improvements. The equipment in question has been in place since 2001, and is not meet ADA specifications and is not compatible with some of the current equipment used. The equipment replaced includes complete console furniture with ergonomic ADA compliant system, floor repair, lighting, surveillance monitors, replacement CAD computers at 4 workstations, (16) 23 inch computer monitors (4 at each position) and misc. hardware, cables and accessories. Total cost is $70,000.00.

   Note: This would be Phase I of the dispatch upgrade. Phase II will involve replacement of the current radio system, as Motorola has informed me that they will no longer support the current Gold Elite radio system. This replacement cost is could be in the area of $200,000.00, although there are options available. Both KanComm and Bourbonnais will face the same situation, which are currently being discussed by the ESTB 911 Board.

8. Generator - This is the replacement of the generator for the Village Hall. This would provide power to the entire facility in the event of a loss of electricity.

VILLAGE OF BRADLEY
Five Year Capital Plan
for Fiscal Years 2015 to 2019

Police	**Fiscal Year 2014/2015**		**Fiscal Year 2015/2016**		**Fiscal Year 2016/2017**		**Fiscal Year 2017/2018**		**Fiscal Year 2018/2019**

*Includes all equipment and installation costs.
**Estimated cost.
***Entire facility coverage-based on 2013 quote.

Fire

1. Command Vehicle – To replace a 1997 Chevy Suburban with 74,000 miles. Paint is starting to fade, clear coat finish is peeling and rust is showing around the rear fender wells and panels. Staff is proposing this vehicle be replaced every 10 years. (Vehicle plan is attached)

2. FIT Test Machine – Any firefighter, police officer, public works or utilities employee who may have to enter a confined or toxic atmosphere as part of their duties is required to wear a protective mask, self contained breathing apparatus or other respiratory protective device. The employee is required by state and federal safety standards to be "fit tested" when they first begin to work for the village and annually thereafter. This is to guarantee that the user will be properly protected when working in any form of toxic atmosphere.

3. Resurface Apparatus Floor - The floor in the apparatus bay needs resurfacing. Currently, the floor is a danger to staff and traps water in rainy and snowy weather.

4. Replace Electric Heaters in Garage – This would replace the current units, some of which no longer function, with more efficient and safer units. Ensuring the garage bay is adequately heated means the diesel engines do need to be warmed up in cold weather.

VILLAGE OF BRADLEY
Five Year Capital Plan
for Fiscal Years 2015 to 2019

Fire	Fiscal Year 2014/2015	Fiscal Year 2015/2016	Fiscal Year 2016/2017	Fiscal Year 2017/2018	Fiscal Year 2018/2019
Replacement Command Vehicle	35,000 (1)		35,000 (1)		
Resurface Apparatus Floor	36,000 (3)				
Replace Electric Heaters in Garage	31,000 (4)				
FIT Test Machine	10,500 (2)				
Ambulance		175,000 (1)			175,000 (1)
Hurst Battery Pack Spreader		11,000 (2)			
Pick-Up Truck				35,000 (1)	
Totals:	**$112,500**	**$186,000**	**$35,000**	**$35,000**	**$175,000**

Public Works

1. Tandem Dump Truck - $150,000 will replace single axel dump truck #1. A vehicle & equipment replacement plan is desirable in Public Works to maintain the streets, alleys, and other responsibilities of the department. This tandem truck would replace a smaller 1990 dump truck with 110,000 miles and establish the beginning of a replacement plan.

2. Pickup Truck - $35,000 will replace pickup truck #22. A replacement pickup truck is being proposed as part of the vehicle & equipment replacement plan. This truck would replace a 1997 pickup truck with 156,000 miles that has body and interior damage, and mechanical issues.

3. SUV - $29,000 will be an addition to the fleet, Public Works Director vehicle. A vehicle for the daily use of the Director of Public Works is being sought with this request. The pickup truck currently used by the director would become part of the fleet.

4. Skid Steer - $58,000 addition to the fleet, primarily used for sidewalk replacement work and rebuilding catch basins. This piece of equipment will have multiple uses. It will be used for sidewalk replacement construction, rebuilding storm sewer structures, and snow removal. Future uses can include patching of village streets, tree stump grinding, and post hole drilling, if additional attachments are purchased.

5. Skid Steer Trailer - $6,000 for transporting the skid steer. Needed to transport the skid steer.

6. Brush Chipper - $40,000 for chipping brush and tree branches. The brush chipper will allow crews to chip the branches brought to the curb by our residents and part of our brush disposal program. More importantly it will allow crews to trim various terrace trees that are hazardous to residents.

7. Zero Turn Mower – Replacement for unit #59 - $13,000 this keeps us in line with a mower replacement plan. The new mower will replace a 2004 unit with 850 hours.

8. Christmas Decorations - $20,000 for 60 banners and 25 decorations for Broadway. These would replace one third of the existing light pole decorations hung on Broadway each holiday season.

Totals:	**$60,000**	**$60,000**	**$0**	**$0**	**$0**

Motor Fuel Tax

1. Roadway Program – This is the annual maintenance program on Village roads. Staff and the Village Engineer determine the roads that are in most need of repair. The annual program is then adjusted to fit what can be afforded. This will be an ongoing program for the Village as long as funds are available to cover it.

2. Road Signs – Replacement of old signs as well as the transition to the new, federally government mandated road sign specifications. This is an ongoing project.

3. Alley Improvements – There are several alleys in the Village that need improving. The Village has received over $252,000 from the State's Capital Bill that must be used according to MFT guidelines. This alley improvement program conforms to MFT guidelines and will last 2 to 3 years and use the money received from the Capital Bill.

VILLAGE OF BRADLEY
Five Year Capital Plan
for Fiscal Years 2015 to 2019

Motor Fuel Tax	**Fiscal Year 2014/2015**		**Fiscal Year 2015/2016**		**Fiscal Year 2016/2017**		**Fiscal Year 2017/2018**		**Fiscal Year 2018/2019**	
Roadway Program	350,000	(1)	350,000	(1)	375,000	(1)	375,000	(1)	375,000	(1)
Road Signs	10,000	(2)	10,000	(2)	10,000	(2)	10,000	(2)	10,000	(2)
Improve Alleys*	15,000	(3)	15,000	(3)	15,000	(3)				
Totals:	**$375,000**		**$375,000**		**$400,000**		**$385,000**		**$385,000**	

* - Capital Bill funds will be used to fund alley improvements. $252,292 has been received through FY 13/14 and these funds must be spent according to MFT guidelines. Approximately $30,000 has been spent on alleys in FY's 12/13 and 13/14 leaving a balance of roughly $222,292 in the Village's MFT account.

Capital Improvement Fund

1. Kennedy Point Improvements - This continues the project started in FY 13/14.

2. Rt 50 Multi-Use Shared Path - This continues the project started in FY 13/14.

3. Curb and Sidewalk Program (Gaming Tax Funded) – The Village started receiving video gaming tax revenue from the State in 2013. The Board decided to use this money to improve curbs and sidewalks in the Village.

4. 50/50 Sidewalk Program (Gaming Tax Funded) – This annual project will now use in-house labor as well as in-house engineering. The only additional cost is for concrete. The Board authorized video gaming tax revenues to be used for curb and sidewalk repair and the 50/50 program fits this definition.

5. 2013 Alley Program – The alley program is funded by the excess annual surplus in the General Fund for the fiscal year ended April 30, 2014. It is anticipated there will be $120,000 transferred from the General Fund at April 30, 2014 for the FY 14/15 program. If there is not sufficient annual surplus in the General fund to make this transfer, then this project will not happen.

6. ROW Accessibility Program - This is a study to determine the extent to which pedestrian infrastructure in the Village's right-of-way (ROW) in compliant with current standards.

7. Lil's Park Improvements - This continues the project started in FY 13/14.

8. Industrial Drive Extension - This is a joint project with the Illinois Department of Transportation to extend Industrial Drive and other State infrastructure.

* - Funded by collection of developer surety bond.
** - Funded by a $238,170 ITEP grant from the State of Illinois and $59,543 from the Village. The Village's funds are already in the Capital Improvement Fund.
*** - Funded by a transfer from the General Fund of excess annual surplus at the end of FY 13/14. If the surplus does not occur, this project will not happen.
**** - Funded by Park Escrow monies transferred in from General Fund

Sewer

1. Pickup Truck - $35,000 replaces unit #85. A replacement pickup truck is being proposed as part of the vehicle & equipment replacement plan. This truck would replace a 1996 pickup truck with 161,000 miles and considerable amounts of rust and body damage.

VILLAGE OF BRADLEY
Staffing Plan for FY 2014/2015

General Fund Summary	Fiscal Year 2014/2015	Recommended Items
Legal	82,202	
Paralegal		82,202
Police		
Police Officer	83,198	
Records Clerk (part-time)	23,567	
Dispatcher (2 part-time)	47,134	23,567
Fire	58,055	
Additional POC Shifts		
Public Works		
Supervisor (50% PW/50% Sewer)	37,500	37,500
Part-Time Support Staff 50%	7,500	
Part Time Employees (4)	40,000	
Total General Fund:	**$379,156**	**$143,269**
Sewer Fund		
Supervisor (50% PW/50% Sewer)	37,500	37,500
Total All Funds:	**$416,656**	**$180,769**

Note - full-time positions include annual salary, insurances and retirement costs.

STAFFING PLAN

Legal

1. Paralegal - This position will perform routine tasks that the Village Attorney now performs, thus freeing up the Attorney's time for more important issues. This position will work closely with existing Village staff on the State of Illinois' local debt recovery program (LDRP) to ensure all legal and adjudication fined for the Village are collected.

Police

1. Police Officer (1) – In 2013, the board approved the hiring of two additional police officers which brought the department back to 2008 staffing level of (34) sworn officers. As discussed during the 2013 budget process, the retail and commercial growth continues in the village, along with calls for police service. The department is responsible for approximately 7.24 square miles and a population of nearly 17000 residents. Being the "retail hub" of the county and having a major interstate highway running through the village, there is always a significant increase in the daily population, especially during the holiday time. The current ratio of police to population in the US is 2.3 officers per thousand residents, which would indicate that the Village of Bradley should have at least (36) sworn officers. The bulk of the officers are assigned to field operations (patrol), and seven officers assigned to specialized duties (Property Officer, K-9 Officer, SRO , Detective Bureau), and three to Administration. With anticipated growth including big box stores in the northern corridor, the department needs to keep up with police operations and staffing, or at some point, certain specialized positions will have to be eliminated or civilianized, and the sworn officers assigned to patrol. Approximate cost of new police officer is $90,000.00

2. Records Clerk (Part-time) – The department currently has two full-time records clerks, who handle a myriad of duties, including processing all reports, arrests, tickets, dispositions, court documents and the adjudication functions. The amount of work is not decreasing, especially in the area of adjudication, since the hearings are held twice a month. I am requesting the hiring of a part-time records clerk to assist with the adjudication requirements or as needed. This would be an hourly wage.

3. Dispatcher (2 Part-time) – The department currently has (10) full-time dispatch positions, three of which are currently being filled due to resignations. In 2011, there was discussion of merging with KanComm, and after a public meeting on the issue, the board decided to keep the dispatch center, but was cautioned that in the future with various mandates and requirements, equipment improvements and additional staffing would be required. The major mandate is once Bradley dispatch commits to (EMD) Emergency Medical Dispatch, that two dispatchers have to be on at all times. Additionally, the village administration has required all departments to start using the radio and CAD system for assignments, which will cause additional work in the center and require at least two dispatchers at all times. I am requesting to hire two part-time dispatchers to fill the slots for time off and as needed. They would come from the pool of applicants that are eligible for full-time employment. This would be an hourly wage.

Fire

1. Additional POC Shifts – This would add one POC staff person to the 6 a.m. to 2 p.m. and 2 p.m. to 10 p.m. shifts. This proposal has been discussed at the Police and Fire Safety committee meetings with the direction to bring forward to the FY 13-14 budget discussion.

Public Works

1. Supervisor – With several new programs being proposed for 2014 it is necessary to have assistance with the daily supervision of employees in order implement the plans successfully. The current condition is one person supervising as many as 16 employees. There is little time left in the day to research rules, regulations, and laws pertaining to Public Works operations.

   The supervisor will perform the following duties;
   1. Supervise a sidewalk replacement program (new program)
   2. Supervise a tree trimming program (new program)
   3. Research and supervise a pond vegetation management program (new program)
   4. Supervise a roadway striping program (new program)
   5. Establish attention to detail program (new program)
   6. Act as Safety Coordinator (new program)
   7. Coordinate GIS inputs (new program)
   8. Supervise a sanitary sewer preventative maintenance program (new program)
   9. Supervise a sanitary sewer camera inspection program (new program)
   10. Supervise a storm sewer structure maintenance program (new program)
   11. Supervise storm and sanitary sewer structure inspections (new program)
   12. Supervise an inflow & infiltration (I&I) program (new program)
   13. Establish an emergency operations program (new program)
   14. Review daily flow numbers for irregularities (new program)
   15. Provide technical assistance to employees
   16. Supervise existing programs i.e.
       a. Brush/branch pickup
       b. Park maintenance
       c. Right-of-way maintenance
       d. Roadway sign upgrades
       e. Special pickups
       f. Lift station maintenance
       g. JULIE locates
       h. Emergency sewer backup maintenance
       i. Emergency storm sewer structure repairs
       j. Flood control

2. Part-Time Support Staff – The staff employee would be responsible for maintain records associated with all Public Works activities. Tracking activities would help the department better understand what has been completed, what remains to be completed, and the efficiency of the department during maintenance activities. New programs are being introduced in Public Works and tracking will be an important function.

   Part-Time Support Staff will perform the following duties,
   1. Establish and close work-order requests
   2. Contact contractors for streetlight and traffic signal maintenance
   3. Track and modify CAD incidents to add detail

4. Track I&I figures
5. Contact homeowners concerning JULIE requests
6. Manage storm and sanitary sewer map books
7. Maintain records tracking labor accomplishments
    a. Brush pickup volumes
    b. Special pickup volumes and cost estimates
    c. Tree trimming numbers
    d. Sign replacement numbers
    e. Snow removal totals and salt consumption
    f. Sidewalk replacement tracking
    g. Feet of sewer cleaned and televised
    h. Storm sewer structures repaired
    i. Storm and sanitary structure inspections
    j. Sewer backup tracking
    k. Lift station maintenance tracking

3. Part-Time Employees (4) – The employees would assist full-time employees with tasks such as grass cutting, park maintenance, and sidewalk replacement.

This page was intentionally left blank.
