Chairman Balthazor

Public comments

None

New Business

General activities report review;

Only discussion was on traffic cutting thru the R.O. Martin Park creating problems on an ongoing basis. The access to that area has been resolved by putting a fence up to direct traffic away from our property.

The Eagle Scout project at Blatt Park is ongoing with a completion, weather permitting, Jan./Feb. time frame

Park activity center;

Reviewed a project from National Fitness Center called 200 cities. This project would include an outside fitness center at Lil's Park. If interested upon further review we will bring this to the full Board at a later date. This project will have a slight budget impact.

Park Signage;

New rule signs need to be installed at our parks. Terry will review Ordinance to make sure signs include restrictions and remove language that is outdated. This will be done in-house.

General budget review;

No changes to date. We discussed opportunities concerning financial options on the Bucket truck, Pick-up, Mower, Trailer for the mower and the street sweeper plus looking into the purchase of a used one. The problem with a used one, we need to be ready to purchase when a good one become available. This happens within days.

Adjourn at 11:40 AM
