5:00 PM

Members Present: Trustee Gadbois, Trustee Cyr, Supt Bessler, Administrator Powers

Public Comment – None

Projects – 2016/ 2017 - Supt Bessler presented the committee with a complete review of Summerville Court Drainage plan for the next budget year. Please see attached document. As previously discussed by the Finance Committee preliminary engineering work will be done during this budget cycle as the Phase I costs did come in lower and Supt Bessler does have some room in the engineering line of his fy2015/2016 budget. That amount is expected to be \$8,000.00

Again this project will include the need for easements from some of the residents.

Upon budget approval for FY2016/2017 phase II could advertise for bids in early May with expected work to be completed by August.

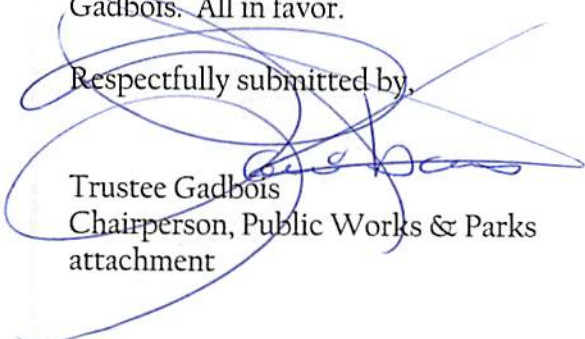

Other Topics

Parks –Supt Bessler brought up the need to improve some of the equipment at Blatt Park, the committee suggested talking with Treasurer to see what the fund balance is in the Park Fund and to look into opportunities for a matching grant program. Supt Bessler will follow up as he has more information. The discussion of Blatt Park also lead to the opportunity for a monument to identify VanMeter Cementery. There is a small committee along with the Mayor working on this.

Lions Park was also discussed, new wood chips will be put down to freshen up the park grounds.

With there being no other discussion, Trustee Cyr moved to adjourn at 5:50 pm, second by Trustee Gadbois. All in favor.

Respectfully submitted by,

Trustee Gadbois
Chairperson, Public Works & Parks
